

From a landlord's perspective it isn't surprising to encourage tenants to use as little power and water as simple. The landlord may be charging a designated rate for utilities so its plain that would certainly want into your market from the utility company to be as little as possible. Regardless of whether they don't charge an apartment rate, when the utilities usage decreases it means that the amenities are getting used less. When they get used less they break less and so in the long term could save a landlord a a small fortune.
