

# Migrate Outlook accounts to new email server

## Outlook setup

- If you don't know how to change, please download Rustdesk or Anydesk, I can remotely help you.

**\* IMPORTANT!!! \***

If existing account is IMAP type. **DO NOT** simply change the server name and password, you will lost all existing emails.

You must export existing emails, then change the IMAP settings, and then import the emails again.

- If existing account is IMAP type, please read: [Migrate Outlook IMAP accounts to new email server](#)
- If existing account is POP3 type, you just need to change the server name, password. All your existing emails will remains there.
  - New server name is `h12.hksx.com`
  - New password has been sent to your company manager/administrator
- See » [h12\\_mail\\_server\\_connection\\_methods](#)
