My friends, please 12 . article to heart. As being a Forex Trader it is often rather important to protect your trades. If you are running an EA or Signal software that needs your platform to be running in any way times, you especially in order to take regarding a Vps. If you don't need your MT4 platforms up at all times, a VPS can still be crucial so it provides a safe, orderly environment in order to to manage your deals.

And the is still pretty advanced. Most of the contains I know charge a monthly fee per user for using of their servers, generally around \$100 per month per user. Augustine says she pays about \$1,500 per month for her service, which include the virtual machines and other premium things. So a 10-person company like mine could be repaying anywhere from \$12,000 to \$18,000 yearly to host our elements. I currently pay my IT firm less than one-third of this every year, and defeat all the Red Bull they slurp. Even replacing a server, which would last us a good seven or more years, would set me back about \$3,000 to \$5,000. I'm not very good with numbers. But these numbers I see.
