How to setup email 如何设置电邮

- There are too many kinds of phones. We cannot see it. You must do it yourself.
- If you use Iphone, please read this how_to_setup_email_on_iphone
- No matter which phone, the principle is the same
- <mark>you must change BOTH "Incoming Mail Server" and "Outgoing Mail Server"</mark>
- Find the "Incoming Mail Server", change it to `h12.hksx.com`
  - Input your email address and password.
  - No need to change settings like Port or SSL, use the default.
- Find the "Outgoing Mail Server", change it to `h12.hksx.com`
  - Input your email address and password.
  - No need to change settings like Port or SSL, use the default.
- Try to send yourself an email. If you can receive it, it is done.

- 手机种类太多了，我们看又看不到，你必须自己动手
- 如果您使用苹果iPhone，请看 how_to_setup_email_on_iphone

Common problems

- Please do NOT ask me where is your Email Setting page, every phone is different. I cannot answer you.
- If connection failed, and you were asked to input password. Please try login to WebMail, just to make sure your password is correct.
- If connection failed, and you were not asked to input password. Please try to change connection method
